THE NORTH RIVER.
(From our own Correspondent.)
Canton, Jan. 18th.
A letter received from Ying Tak District runs something like this:—"We were very glad when Canton proclaimed itself a Republic and we thought we were going to enjoy peace for a long time thereafter; but during the last two months there have been so many cases of robbery that business at a standstill and all the important shops are closed. We beg for help and soldiers to put down the pirates as until such time no rice can come down the river to the city." This is a serious state of affairs and it is apparently literally true. The number of robberies is increasing daily and no junkie dare carry rice so that if something is not done serious trouble will result as the people will soon be on the verge of starvation. This question will have to be met as before long the reaction will be felt in Canton. At present food is dear in the city but if things are not quieted on the Delta food will become dearer still, and dear food riots, as we know, are the worst possible kind.
FIGHTING NEAR CANTON.
In the Pak Kong district there has been some serious rioting and fighting. A large band of pirates have fought with the villagers, whom they easily overcame on account of their want of arms and ammunition. This business is said to be the work of a rich man who has a long standing grievance against the district in question and has taken this means of revenge. This of course is an improbable story; but it should be true, here is a fine chance for the authorities to step in and show the common people that they have their grievances always before them and are looking after their interest.
Also in the Wat Lam Chong Prefecture there has been fighting between a formidable gang under a notorious leader, and the villagers. They had a regular pitched battle in the village and the robbers were successful in carrying off a considerable amount of booty, which he put in the papers at 50,000 dollars. Quite a number of people were killed in the action and disturbances are still going there. This would seem from reports to have been an organized attack and have been meditated for some time, as exactly the best possible time was chosen for the attack.
Our Shanghai things are exactly as last week and more and more ramparts of sand are being piled up. At the end of each road which crosses the middle avenue piles of sand are being raised and the footpaths and the central avenue are being blocked up. The back of the Bund is also guarded and forms a strong position from which to repel an attack.

The Remington -
Typewriter
is the
PERPETUAL PIONEER

The No. 10 and No. 11 Visible Remington Models are the latest expres-
sions of Remington leadership. They represent the sum total of all
typewriter achievement—past and present.
They contain every merit that the Remington has always had, and every
merit that any writing machine has ever had.
They contain, in addition, new and fundamental improvements that no
typewriter has ever had; among them the first column selector, the first
built-in tabulator and the first key-set tabulator. These improvements are
the latest contributions to typewriter progress, and they are Remington con-
tributions—every one.
The Remington, the original pioneer in the typewriter field, is the
present day pioneer in all new developments of the writing machine.

REVIEW.

Great Engravers (Francisco Goya and Van Dyck). Edited by ARTHUR M. HIND.

London, Wm. Heinemann.

To more volumes of this very handy series are to hand. They are of very divergent merit. Great as Goya may be as a portrait painter, perhaps the greatest Spain has produced since the days of Velasquez, we must frankly own to disliking his work as an engraver, or maker of aquatints. Granted that in this line of achievement he assumed the role of a satirist, and that the various plates all display great imagination, a wonderful power of line, and a keen insight into the foibles of a decadent age, we still must own to feelings of repugnance as we turn over the pages of this book. The subjects depicted are, with a few significant exceptions, as coarse and repellent as anything that Goya or Rowlandson did for English eighteenth century art.

The volume devoted to Van Dyck and the portrait engravers and others in the seventeenth century, makes a very different appeal. Here we move among a lot of pictures which please the eye as much for their sincerity and truth as for their higher artistic qualities of insight and dramatic effect. Van Dyck, for instance, in his pure style of work, gives one the instant impression of having caught the actual expression of the character he delineates. Even when compared with Rembrandt he comes out of the ordeal well, though of the two he is less subtle and of less depth. We have here twenty-two of Van Dyck's engravings, including the famous Desiderius Erasmus, the Antonis Cornelissen, the Pieter Brueghel, the Younger, and the Franciscus Snyder; all rare gems worthily reproduced. Among the Rembrandt engravings we find the well-known Jan Cornides Sylvius and Mary Rathen. One plate by Paul Portius is printed, the clever Peter Paul Rubens after Rubens; this is a line engraving of rare power.

Among other engravings who find a place in this interesting and charming volume are Jan Muller, Joans Snyderhof, Cornelius Van Dillen, the Younger, Abraham Boettling, Jan Lievens, Wenzel Hollar, Carel de Moor, O. Leoni, Jean Morin, Claude Motin, Nicolas Reguereau, Robert Nantaul, Gerard Edelinck, Antoine Moisson, William Faithorne (reproduced by Prince Rupert, Barbara, Lady Castlemaine, and Lady Paston); Pierre Lombart, David Leggett, Pierre Drevet, and Pierre Lambert Drevet—in very good, a goodly company. Of course all the etchings and engravings are not of equal merit, but they have been in most cases capably reproduced and art lovers will be glad to have them, we imagine, in such a compact, reasonable style.

Many will agree, we imagine, with the editor of the Irish Homestead when he writes: "The State is gobbling up its citizens, and in a couple of centuries if we are not all civil servants in the sense that the State will pay us we will all have to work as the State wills us to work. Even as the American husband labours hard to dollar-making from morning to night while his wife spends royally what he earns, so in future when man is married to the State he will work hard and the State will see to the spending of his money."

AMOIY NOTES.

(From Our Own Correspondent.)

AMOIY, January 15.

MATTERS ATLANTIC.

A very interesting baseball match was played between the Officers and men of the U.S.S. Monterey on Wednesday, Jan. 3rd.

A football match was played between the S.S. Virago and Kulanga team on Saturday, 19th inst., when the Viragonians won their first match. Kulanga was one man short, and missed the help of several players who were away. Hockey matches, both mixed and men's, have been played when weather permitted. We have had, however, several rainy days since the New Year started.

NAVAL NEWS.

The U.S. American transport, Pistolaqua, left here for Manila on Dec. 31st.

The German cruiser, Geusenian, left us on January 2nd for the North. The Japanese torpedo boat "Kasumi" left on Jan. 5th for Formosa, while the Usumugi arrived here from Foochow on the 8th inst. On Jan. 3rd, the Chinese gunboat Wan Kai came into port from Foochow, but left again on the 8th for the same port. The British torpedo boat, Virago, the American monitor, Monterey, and the Japanese torpedo boat, Usumugi, are still in port.

MUNICIPAL MATTERS.

The annual printed report of the Municipal Council of the International Settlement of Kulanga has again been issued, and is a most interesting document.

The members elected to serve in January underwent considerable alteration during the year, owing to resignations and fatalities. A new election is to take place on January 23rd. The artesian well project had to be abandoned, owing to the great thickness of rock through which it was found impossible to bore. It involved a loss of over \$5000. Owing to much damage done by the storms in August and September, many repairs were needed to the street lamps and to the roads and drains, but everything was put into good order again. Dr. D. H. Ainslie's medical report is very full and well worthy of perusal, showing how great is the care taken to keep the dwellers upon the island, both Chinese and Foreigners, free from sickness. Only four Foreigners (one an infant) have died during the year, and 216 Chinese, with a marked decrease from infectious diseases. The milk supply is well looked after, and the sanitary arrangements in the nine dairies have been much improved. Only five samples of milk were proved to have been adulterated during the year, and the offending dairies fined heavily.

The report of the Captain-Superintendent, Mr. C. Berkeley Mitchell, concerning the police and goal makes very interesting reading. The police force has been increased, with the most satisfactory result that there has been less crime in 1911 than in 1910. The number of summonses was 100 less, being only 229 instead of 331.

The total expenditure for the year amounted to \$30,214.44, while the total income was \$27,264.83, so that there is still a deficit balance to be carried forward into the present year.

LONDON MEMORIAL SOCIETY.

The Pastors, preachers, and delegates of the Chinese Churches opened by the Memorials of the L.M.S. have just held their annual congregational union meeting for the year, owing to the disturbances of the year, and to the high average of deaths and burials, there has been no numerical increase in Church membership, and this for the first time for forty years. Though no less than 164 adults were baptized, or received to full membership, the loss by death, transfers, and other causes more than counter-balanced the additions. Yet it is satisfactory to note that the total amount raised by the Chinese Christians themselves amounted to nearly \$18,000.00, only slightly less than last year. The number in full membership is 3458; 2010 baptized children with 2884 adherents.

production in the British and Continental coalfields will be little in excess of demand, for the operation of the Eight Hours Act in Great Britain and the guild regulations abroad have brought down the average output per man to a very considerable degree. One thing, then, is certain: we shall see dearer coal, for wages are bound to advance all round. The iron and steel industry, which is so greatly dependant upon the coal-miner's activity, gives signs of a steady advance during the coming year, though prices will be higher owing to the depletion of stocks and the probability of large orders for renewals being given by several big railway companies at home and abroad; while the continued prosperity of the shipbuilding trade is another determining factor of great importance. There is every probability that the demand for copper will be in excess of production, leading to a decrease in present stocks and a rise in prices. The electrical industries will be responsible for this, and the German demand will dominate the field. Tin also should hold its own well, for what with the ever-expanding business in tinplates to meet the needs of the big canning industries, and the falling-off in the Straits supplies, merchants are calculating upon prices beating the average of the past three years.

We have dealt above solely with minerals, for they are the lines of industry which affect the lives of many millions of people and thus furnish the best index of the probable course of trade. If they are flourishing, then the rest of the industrial world will flourish, so intimate are the relations which nowadays connect every known trade with the other. On the assumption then that the coal, iron, and mineral trades are flourishing we can safely predict a good year for textiles. Indeed, if all goes well, Lancashire expects to find the demand for cotton manufactures during 1912 to be the largest on record. The increase in the supply of cotton will be largely balanced by the growth in consumption, and owing to the price of cotton falling considerably lower than in the last two years then the profits of manufacturers may be expected to be greater than in any year since 1907. As for rubber, an industry of comparatively recent growth, the prospects are equally bright. The ill-effects of the boom are now completely exhausted and the trade has settled down to a steady business with good though not extravagant prospects ahead.

The facts quoted above are extracted from "Business Prospects for 1912," a yearbook edited by JOSEPH DAVIES and C. P. HALEY, and published by the Business Statistics Company, Ltd., 12 James Street, Cardiff. It is a book to be studied with care. As the editors say on their title page, "whether they agree or differ with the conclusions, the facts and estimates given cannot fail to be of value to every business man"—and with that expression of opinion we cordially agree.

There are at present twelve ladies who have obtained their brevet as pilot aviators. Of these six are French, four English, one American, and one German.

Two further cases of the dumping of bodies of children dying from small-pox are reported from Yau-mat. One, a male, was found in Satien Street and the other, a female, on the hillside.

This afternoon two women were brought before Mr. Irving at the Magistrate on a charge of unlawfully harbouring two unmarried girls, aged 5 and 14 years respectively, knowing them to have been taken out of their parents' possession against their wills. The police withdrew the charge, and the women were discharged.

The annual report for 1910-1911 of the F. H. Theological College, Canton, is one of continued progress. Altogether 181 students were enrolled and this was the largest number ever noted in a single year. The buildings have been enlarged and renovated and from all appearances an even more successful period is anticipated during the present year.

The German Estimates for 1912 show a deficit of £2,187,000. This is mainly due to the widening of the Kiel Canal. Compared with 1911 the naval expenditure has been increased by £1,273,000, and the army expenditure by £1,000,000. A National Defence League is being formed to help the army on similar lines to those pursued by the Navy League.

Chinese have been accustomed to plaiting their queues with white hair when in mourning. Now that large numbers have ditched their queues there is no means of knowing when they are in mourning or not. A meeting will shortly be held, says the *Ping-ping Gazette*, to consider what distinctive mourning sign should be worn.

At Malacca, on Saturday, Jan. 6, the Malacca Rubber Plantations, in conjunction with the Chartered Bank, gave a dinner in honour of the opening of their new offices. About 140 sat down under the presidency of the Hon. Mr. F. W. Collins, General Manager of the Malacca Rubber Plantations, and there were many ladies among the number. In the evening a successful dance was held at the Stadthouse.

The other escaping three European soldiers, murdered a native near the Hotel Hermann at Bangkok says the *Straits Times*. Two of the murderers have been arrested and the third has disappeared. There is, of course, a woman in the case. A friend of the murdered Indian was also hopelessly injured and remained in the hospital. One of the accused, Havemann, has admitted his guilt, but pleaded drunkenness.

The cruiser Monmouth, Captain Laurence E. Power, M.V.O., will complete her present commission on the China Station in March next, and will be recommissioned for further service in the same waters. The Monmouth was recommissioned at Colombo on March 12, 1910, for her present spell of service, and prior to that she put in a commission with the squadron, in which she took the place of the cruiser Andromeda.

The new British battleship Orion, which was commissioned at Portsmouth on January 2, is to relieve H.M.S. Ribblesdale as flagship of the Rear-Admiral in the Second Battle Squadron of the Home Fleet. The crew for the Orion was drawn from Devonport, the nucleus crew of H.M.S. Mars being drafted to her. As soon as the commissioning is convenient, the flag of Rear-Admiral H. G. King-Hall, C.V.O., C.B., D.S.O., was to be transferred to the Orion, and the Ribblesdale was then to be recommissioned at Devonport with a new Chinese nucleus crew for service in the North Sub-Division, but in view of the collision of H.M.S. Revenge with the Orion these arrangements have had to be modified.

Home papers give prominence to the Cabinet split on the Suffrage question. The *Times* says:—"The appearance of Mr. Lloyd George, Chancellor of the Exchequer, and Sir Edward Grey, Secretary of State for Foreign Affairs, in full war paint in the suffragist camp, should force the Premier, Mr. Asquith, to take off his coat and combat a policy which he regards as very disastrous." There is much newspaper and club criticism in regard to the Premier's peculiar position. It is understood that Mr. Lewis Harcourt, Mr. B. McKeena, Mr. C. E. Hobhouse, Mr. Herbert Samuel, Lord Loreburn, Lord Crew, and Mr. Winston Churchill, are against the granting of the franchise to women. Lord Eldon, Mr. John Burns, Mr. Sydney Buxton, Mr. Walter Runciman, Lord Morley, and Sir J. A. Simon, on the other hand, are in favour of women's suffrage.

The financial statement presented by Mr. Andrew's Viceroy for the year 1911 shows the Church to be in a strong and healthy condition. Beginning with a credit balance of \$37,27, the year closed with \$68,05 in hand, and in addition the Treasurer was able to put \$400 on deposit for special purposes. It is hinted that the year 1912 will be one of heavy liabilities and it is therefore advisable that the advance of 1911 year should be maintained and increased.

He joined the 9th King's Royal Rifle Corps (North Cork Militia) in 1900 and while serving in South Africa in the following year was recommended by the G. O. C. (Lord Kitchener) for a commission in the line. He has since served some years as adjutant of Northern Nigeria Infantry.

Lieutenant J. M. Steele has been appointed to the flagship Minotaur for duties in physical training. This officer, who has been attached to the flagship for some weeks, has put in almost twenty years in the service, which he joined in January, 1892, and reached the rank of lieutenant in 1900. He served on the cruiser Forte, Cape Squadron, during the South African War, and took part in the operations of the Naval Brigade for the relief of Ladysmith in the course of which he was slightly wounded at the battle of Elandslaagte. He was promoted lieutenant for his services. He also was with the naval party landed in the 'Amble in 1901.

SAMY SENTENCED.

ONE YEAR'S IMPRISONMENT.

The youth named Abol Rajack Samy, formerly a clerk in the employ of the International Banking Corporation, who pleaded guilty to charges of forgery and falsification of accounts, before Mr. Justice Gumpert, at the January Assizes, held at the Courts of Justice on Thursday, came up for sentence before his Lordship this morning.

Hon. Mr. W. Rees Davies, Attorney General, said—Before your Lordship passes sentence on the prisoner, I desire to say on behalf of the Crown, having regard to his youth, I endorse the appeal my learned friend, Mr. Potter, made yesterday for leniency. I trust your Lordship will pass as lenient a sentence as is consistent with your duty.

His Lordship said—Abol Rajack Samy, you have pleaded guilty to a serious charge which has involved a term covering a great number of months. The total sum of which you have succeeded in depriving your employer amount to over £20,000. It was suggested by learned counsel that you were a mere cat-in-a-hat—but, however, I cannot accept that view because I think it is impossible. I think the acts on which you succeeded in obtaining this money showed an amount of deliberation and forethought quite incompatible with that view. However the Crown is willing to be merciful and I cannot forget the fact that you were a clerk, hardly 18 years of age, at a salary of £20 a month and only but recently a boy at Queen's College. I understand your family are very respectable, although in humble circumstances, and it cannot be a very pleasant reflection to you to feel that instead of assisting your parents you have embarked upon a course which has covered your parents with shame; a course which will always be against you in endeavouring to get a position in this Colony where the facts are known. It is a position which makes it very bitter for your brothers and sisters, who are in this Colony of Hongkong, where your grandfather settled after a long and honourable career in the Colonial Police. I understand you have made retribution of a large portion of the amount taken from the bank and made a clean breast to your employers of your share in the matter. I think therefore, taking into consideration the statement of the learned Attorney General for the Crown that he does not press the case severely in that you are very young, almost a schoolboy, and that the effect of the case will be so bitter, I feel justified in passing a lenient sentence. I sentence you to twelve months' imprisonment with hard labour.

CHARGE AGAINST EUROPEAN
WOMAN DISMISSED.

The case in which Charles James Kirkpatrick, formerly an officer in the British Navy, charged Miss Vir. M. Ward, of Hollywood Road, with stealing \$150 on the 7th inst, was concluded yesterday afternoon. Mr. Otto Kong Sing prosecuted and Mr. E. J. Grist defended.

Complainant's story was to the effect that he visited defendant at her house and later in the evening they took a motor trip to the Belle View Hotel, and while there drinking, as he reached over the table, defendant put her hand in his pocket and took out a bundle of notes. The woman refused to give them back and when plaintiff mentioned his intention of going for the police a man connected with the hotel offered him \$50 to hush the matter up. Subsequently Police Sergeant Pitt got \$115 from defendant but complainant refused to take it.

Under cross-examination complainant said he set out that morning with \$105 and the only thing he had bought was a pair of gloves for defendant. He denied that he did not know how much money he had, or that he put a roll of notes on the table.

The story for the defence was that the complainant was under the influence of drink at the time and when the defendant asked him to pay the bill presented her three down \$115 on the table. Defendant paid the bill and kept \$35 change in her hand. This she offered to him, whereupon he alleged he had given her \$200.

After hearing evidence, his Worship dismissed the case.

QUIET WEDDING AT
ST. JOHN'S.

Avenell-Coleman.

A quiet wedding was solemnized at St. John's Cathedral this morning, when Miss Irene Mabel Coleman, daughter of Mr. Francis Arthur and Mrs. Coleman, of Green Island, was married to Mr. George William Avenell.

The bride was given away by her father while Mr. E. F. G. Orchard acted as groom's man. The Rev. F. T. Johnson was the officiating clergyman.

Later in the day the happy couple left for Macao where the honeymoon is to be spent.

PORTUGUESE FORCES FOR
TIMOR.

The Portuguese gunboat Patria arrived from Macao yesterday en route for Timor, where she will remain for a month or so, owing to the recent troubles. She has on board 100 Italian troops from Goa and will leave this evening, expecting to be on the scene of trouble in ten days.

Our Macao correspondent says, the European contingent which arrived from India lately will follow the gunboat Patria to Timor on February 3rd next, going by direct boat. They number 60 men and will be under the command of Capt. Canavarro and Lieut. Rasako, both old local hands. There has been a constant interchange of cables between Macao and the metropolis lately, and it is surmised an urgent wire has come from Macassar.

STEAMER'S STRANGE
CONDUCT.

A case in which a steamer is reported to have collided with a junk in broad daylight and neglected to lend aid has been brought to the notice of the police. The master of a licensed junk reports that at 10.45 a.m. yesterday, while sailing off Hau Mun, on the high seas, a steamer, with a black funnel having a white band round it, while steaming from east to west in the direction of Hongkong, collided with the junk. The steamer struck the junk on the port side and the latter craft sustained damage to the extent of \$300, in addition to losing two anchors, some muskets and considerable clothing. The total loss and damage is put at \$870. No lives were lost. The master of the junk says the steamer made no attempt to render aid, but proceeded on her course as though nothing had happened.

The case has been reported to the Harbour Master, who is investigating the circumstances.

CORRESPONDENCE.

D'AGUILAR STREET LATRINE.

(To the Editor of the "CHINA MAIL.")
Sir,—With reference to that portion of the report of the Sanitary Board's proceedings appearing in the *South China Morning Post* of the 17th inst., and the *China Mail*, of the same date, regarding the erection of a public latrine in D'Aguiar Street, we are instructed by 81 residents and householders in the neighbourhood to inform you that a petition against the erection on this particular site was sent in on the 16th November last signed by all our clients. As the number of our clients is that above stated, it seems hardly correct to describe it, as described in the report in the *China Mail* of the 17th January, as "An objection from several people."

We enclose you a copy of the petition and shall be glad if you will publish this letter together with a copy of the petition in your paper.—Yours faithfully,

DEACON, LOOKER

AND DEACON.

[Note.—Our report merely reproduced the remarks of the President of the Sanitary Board and was no true diary on the part of the *China Mail*. We regret limitations of space preclude the reprinting of the petition with its long list of names.—Ed. C.M.]

The *Indian Daily Telegraph* says that the trial of Miss Maud Stephens for the alleged murder of Miss Garnet Orms has begun at Dehra Dun before Mr. O. M. Harper, First Class Magistrate. A number of witnesses have been examined; many of whom are residents of Lucknow and friends of the deceased lady. There are, it is said, some eight witnesses for the prosecution. The present proceedings are merely the preliminary inquiry prior to committing, and should the accused be committed, the trial will take place at the Allahabad High Court before a jury.

THE REVOLUTION.

(Reuter's Service to the China Mail.)
London, Jan. 18.
Reuter's Peking correspondent says an officer and a soldier of Yuan Shih Kai's escort have died of wounds sustained in the bomb outrage. Forty arrests have been made.

ANARCHY.

Mr. Sowerby, who has been on a relief mission, found the provinces of Shensi, Shansi, and Honan in a state of anarchy. Outlaws and revolutionists were indistinguishable. The Imperialists were equally lawless. Towns and villages were deserted, and people were hiding in caves in the mountains.

10,000 MANCHUS MURDERED.

The gates of Sianfu were closed for four days while mobs murdered 10,000 Manchus.

IMPERIAL PRINCES SUBMIT.

LATER.
Reuter's correspondent at Shanghai states that Tang Shao-yi has received a telegram from Peking stating that the Imperial Princes are unanimously in favour of the acceptance of the Republican terms.
It is believed that negotiations with a view to a peaceful settlement are nearing completion.

Reuter's Peking correspondent says the High Executioner has strangled three men arrested in connection with the attempt on Yuan Shih Kai's life.

THE IRISH SITUATION.

IS ULSTER "BLUFFING"?

(Reuter's Service to the China Mail.)
London, Jan. 18.
The Liberal newspapers regard the attitude of the Ulster Council as "bluff" but consider it likely to stir up passions in Belfast productive of the gravest situation. They declare that any violence offered to Mr. Churchill and Mr. Redmond would simply assure the immediate passage of the Home Rule Bill.

The Unionist papers urge the abandonment of the invitation to Mr. Churchill who, however, is described as being inflexibly resolved to speak.

The Morning Post hopes that the Council will reconsider its attitude, and says it would be wiser if Orangemen guaranteed Mr. Churchill safe conduct. The Daily Telegraph hopes that Radicals will recognise that Ulster is in a dead earnest.

The Standard says it is inevitable that there should be a response to the insolent challenge of the Liberals.

ANOTHER VIEW.

LATER.
Many Unionists deprecate interference with free speech in Belfast. Ulstermen say they will not object to Mr. Churchill and Mr. Redmond speaking at Belfast, but they will not allow the meeting to be held in historic Ulster Hall, which though the property of the Municipality is situated in the heart of the Unionist quarter and possesses political associations.

THE KING AT PORT SUDAN.

PICTURESQUE SCENES.

(Reuter's Service to the China Mail.)
London, Jan. 18.
Reuter's correspondent at Port Sudan telegraphs that the Medini arrived yesterday morning, and their Majesties, who were received by Lord Kitchener, Lient-General Sir F. Wingate, and others, landed. There was a picturesque assemblage of native chiefs including former followers of the Mahdi, who rendered homage. Their Majesties took train for Sinkat, where they reviewed 3,500 "camelry" and witnessed native dances. They returned in the evening, and the steamer sailed for Suva.

The King, replying to an address presented to him at Port Sudan, referred with satisfaction to the contentment of his loyal subjects in the Indian Empire, and dwelt on the gallant deeds of the British and Egyptians in the past in the Sudan. He hoped that the record of the thirteen years of administration had proved that the aim of the Government was to develop its resources and bring peace and prosperity to the Sudan.

LAWLESSNESS IN THE KWANGTUNG PROVINCE.

A correspondent writes:—The reports of robberies and outrages throughout the Canton province are extremely numerous, and frightfully distressing. From private sources we learn that every where along the course of the North River hardly any one is immune from the depredations of these lawless bands, who roam about and do as they list, without encountering any force strong enough to interfere with them and their deeds. Villages are looted, and, as if this were not enough, often youths are carried off, and held for ransom, and if there is the least provocation from any source firearms are used, and the dwellings of the people are set on fire and burned to the ground. We see to-day that a serious outbreak has occurred in the country districts between Paenyue and Shuntak. It appears that there are a good many people who reside in this countryside, whose occupation is the farming of the sand-lands, whose product even in the best of times is not very remunerative. Suddenly a few days ago a band of armed men appeared, and demanded from each of the farmers the sum of one dollar, that he might be allowed to remain on the land and follow his old occupation. The farmers refused to comply with these requests. Suddenly the brigands opened fire upon the people and killed a good many of them. When this was done, they further set fire to many of the temporary buildings in which the farmers lived. These and such like deeds seem to be perpetrated throughout the length and breadth of the province. If we look over the daily report in regard to what is said to be happening in the city, the results are just the same. We noticed to-day a list of three robberies in three of the quiet streets of Canton. In every case the robbers said they were soldiers, authorized to enter the houses to search for firearms. Their object was to get within the walls, to occupy them at once, to terrorize the inhabitants and then help themselves to what they can lay their hands upon. Evidently too the Chinese keep considerable sums of money in their houses, without any safe place of hiding, for in each of the three cases mentioned sums were stolen, which no foreigner would care to have in his house, especially in these unsettled times. In view of what is transpiring, and the apparently hopeless chance of grappling with these marauders, there are those who are asking why there should be such an eagerness to enlist troops and send them up north. If all the men who have enlisted were trained and kept in the province, they might be a little in a short time to force these lawless bands into submission. Then ordinary business would be resumed, and the rivers would be open for traffic. This would give the people something to do, and so they would not need to get their living by snatching the bread from the mouths of their fellows, and then shooting them down like dogs at the least resistance. It would certainly be a wise counsel to apply the oft repeated proverb, "charity begins at home" to the present needs of the province. If the rulers would take the question seriously in hand and put down these cruel bands, they would deserve well at the hands of their fellow men, and they would in return receive the generous support of those who have money to spare. As it is, there are ominous mutterings at the condition of affairs, and law-abiding citizens are wondering when there is likely to be an end thereto. These robberies, pillages and outrages are not war. They should not be allowed to be perpetrated. Soldiers may be needed to overawe the rowdy section in Canton and to deter the Manchus section of the people into submission. They are equally needed, if not more so, in the country districts to put down these cruel bands that do so much harm.

HONGKONG LAND RECLAMATION COMPANY, LIMITED.
The tenth report of the board of directors to the ordinary meeting of shareholders to be held on Thursday, the 25th January, says that the net profits for the year ending 31st December, 1911, included £262,509.73, brought forward from last account, after paying all charges, amount to £207,100.00. It is now proposed to pay a dividend of 7 per cent on the paid up capital, after providing for which and writing off directors and auditors fees there remains a balance of £138,474.00 to be carried to credit of a new profit and loss account. Messrs. S. A. Levy and W. Logan having resigned, Messrs. C. S. Gubbay and E. Shellim were invited to re-join the Board and those appointments require confirmation. Messrs. E. Shellim and Ho Tung re-joined, but officers themselves for re-election. The accounts have been audited by Messrs. W. H. Potts and A. O'D. Gourdin who retire and are recommended for re-election.

COTTON AND YARN.

Messrs. Polishwalla and Kotwall, Cotton and Yarn Brokers, report:—
Our last report was dated the 8th instant, per s.s. Davanah. For the period under review we have to report a large volume of business, amounting to about 8000 bales. The principal demand has been for the Yunnan market, which probably absorbed three-fourths of the total bookings, consisting mainly of No. 10, such as Aster, Currumbury, David, &c.

On seeing the demand gather force, in the early part of the fortnight, the importers showed a little firmness and succeeded in establishing an advance in prices of from \$1 to \$2 per bale.
A fair amount of forward business, included in the above total, was also put through, but it is mostly speculative.

At the close, the general tone is very quiet.
Total sales 8,500 bales. Unsold stocks, 14,000 bales. Sold but undelivered in the godown and to arrive 10,000 bales.
Arrivals.—The mail steamer Delta, and extra steamers Tom Maru, Capri and Hakata Maru from Bombay, and steamer Namung from Calcutta have brought in 5,418 bales for Hongkong and 2,860 bales for Shanghai. Shipments from Hongkong to coast ports, &c., amount to about 800 bales.

Local Mill.—About 285 bales have been placed on the market at above quotations. Shanghai.—No change to report in this market.

Japanese Yarn.—In our last report we stated that no business had transpired owing to the higher prices demanded. During this fortnight dealers were forced to meet the views of the importers, and an advance of \$4 has been established in No. 20; some 450 bales were booked at \$149.50 to \$151.

Raw Cotton Bengal.—No business.
Chinese.—A parcel of 100 (loose) bales was sold @ \$33 to \$35. Stocks, Bengal 125 bales and Chinese 850 (loose) bales. Quotation, Bengal \$28 to \$31 and Chinese \$23 to \$25 per picul.

A summary of a statement by Mr. John Barrett (Director-General of the Pan American Union) appears in the December issue of the monthly bulletin of the Pan American Union, under the title: "The Panama Canal—From the Shipping of the World." He is of opinion that "the Panama Canal, to prove of the greatest practical usefulness to the United States, should be free to the shipping and commerce not only of the United States, but of the world. Legislation to this effect by Congress, at its approaching session, would ensure the immediate, complete, and permanent success of this waterway as a new route of international and national commerce."
